ISIS - Recommendation #2312

We should stop sending the ISIS notifications to all Astro

Category:	Infrastructure		
Target version:	N/A		
Impact:	Only interested users will receive notifications about changes to ISIS	**Software Version:**	

Description

I think we should send it only to those that sign up for them. No need to bug admin and others with these e-mails. Early on we were combatting a sense that there was no work being done on ISIS. I think we are past those days. Means making an "ISIS users" e-mail group. This should include outside users too.

- Impact updated

Currently the email list is hosted internally. This should work for now. We are looking for something like a list server on the outside, so the emails can go out to everyone who is interested.
